

LTERSensorNIS2011

- possible workshop products
 - qualifier definitions
 - recommendations to NIS developers regarding streaming data
 - issue with versioning model
 - persistent identifiers?
 - genome community has data journal that has been successful
 - build knowledge library - one pagers on methods/tools
 - have places on LTER IM web site
 - also Databits
 - perhaps summary of what we are doing at sites for Fall 2012
 - Campbell paper
 - want to target ecological community
- aim
 - ready for workshop at ASM2012
- discussion of tomorrow sessions
 - ID areas where we can do something
 - if started knowledgebase - could do some writing assignments
 - even list of annotated sensors would help
 - use cases where providing prototype sensor management systems
 - tracking sensors and their history
 - JP straw man model
 - NEON chip could be duplicated with RFID chips
 - brainstorming products tomorrow
