## LTER GIS/EML Workshop

Thu, 09/16/2010 - 2:28pm — tvalentine

The GIS Working Group would like to invite sites to participate in a workshop at the Andrews LTER Site in November of 2010. To participate you need to use travel funds (approx \$1000 ) identified in your IM supplement (or find other travel funds) for travel expenses for someone from your site to spend 3 days working on the issues of how to integrate your GIS data metadata with EML, develop some proposed LTER standards, and work on getting better location data into your study EML so that it can be used by projects such as LTERmapS. You can also participate remotely through VTC.
