LTER IMC Governance working group

The IMC Governance Working Group's charge is to identify:

- How decisions have been made by the IMC and IM-Exec in the past
- How we govern ourselves currently
- How we might improve governance

An initial goal is to explore, document and learn from the ways the IMC participants have conducted their governance. This effort involves identifying elements of governance by reviewing governance structures, practices, and decision-making in the formal and informal work we do.
