Post ASM Workshop Report 2007

Tue, 01/27/2009 - 1:49pm — cgries

A 2-day workshop was conducted on Jan. 31-Feb. 1, 2007, in Las Cruces New Mexico to explore developing standards and practices for quality control of synthetic and integrated data products. This workshop was attended by 13 people with broad expertise in environmental monitoring, data synthesis, and information management. Participants represented 9 LTER sites, the LTER network office, CUAHSI, NCEAS, the Canopy DataBank Project, as well as various standing committees and working groups in LTER (NISAC, IM-Exec, EcoTrends).

Additional information about the workshop, major findings and products are presented in the final workshop report linked below. Links to additional overview presentations and the original workshop proposal are also provided.
